and promotional material, and each time anyone asks you about your ebook.

Besides promoting your books assiduously on-line, there are a number of other methods that can show you how to sell extra books.

One is to give something away free of charge along with your ebook, corresponding to a useful bonus item. Or bundle a number of ebooks beneath one worth, which lowers the worth for every ebook if they had been offered separately.

An effective technique for determining a worth is to ship out a survey to your current customers. If these clients have already bought an book from you, ask for their opinion in terms of price. Do that by creating a gross sales page for the brand new book, but do not embrace a price on that page. Instead, add a number of links to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another technique is to check out prices by making a variety of duplicate sales pages with different prices on every page. Make certain your gross sales copy is exactly the similar on every web page, and includes your selling-handle sentence. Then determine for each web page the conversion ratio between guests to your site and gross sales of your book. This will let you know what your optimum worth is.

Ultimately, if you've written a book that solves a downside or presents a brand new approach, your ebook will bring in each site visitors and profits. So make sure to write that promoting-handle sentence that sums up what drawback your e-book solves and what the benefits of your 537 book will be to the shoppers who purchase it.
